

2022 Subject Index

18F-Fdg-Pet/Ct.....	37	Chest scan.....	91
Accessory breast tissue.....	1	Cholesterol.....	108
Adalimumab.....	94	Circumferential volume measurement.....	148
Adverse event.....	155	Citation.....	258
Aggressive.....	381	Clinical features.....	360
Angiolipoma.....	371	Clinical practices.....	205
Angiosarcoma.....	190	Colonic metastasis.....	375
Anthracyclines.....	299	Contralateral prophylactic mastectomy.....	16
Arab culture.....	329	COVID-19.....	306
Arfi elastography.....	134	Covid-19.....	74, 85, 91, 289
Artificial intelligence.....	203	Cystic neutrophilic granulomatous mastitis.....	94
Axilla.....	163, 195	<i>De novo</i> breast cancer.....	85
Axillary dissection.....	163, 289	De-escalation.....	6
Axillary lymph node metastases.....	37, 203	Desmoid.....	381
Axillary reverse lymphatic mapping.....	1	Diagnostic performance.....	37
Axillary ultrasound.....	37	Dietary fat intake.....	108
Barriers.....	329	Direct-to-implant reconstruction.....	55
Benign.....	248	Ductal carcinoma <i>in situ</i>	205, 336
Bioimpedance spectroscopy.....	148	Ductography.....	279
Biomarkers.....	235	ECG.....	299
Body mass index.....	271	Elastin fiber.....	134
Bone metastasis.....	286	Estrogen receptor.....	167
<i>BRCA</i> mutations.....	323	Extra-mammary.....	252
Breast.....	30, 172, 190, 279, 343, 360, 371	Fat grafting.....	105
Breast calcification.....	13	Fibroadenoma.....	134
Breast cancer.....	1, 6, 63, 74, 79, 85, 91, 105, 134, 141, 148, 155, 167, 182, 199, 222, 229, 235, 252, 258, 292, 306, 315, 375	Fibromatosis.....	381
Breast cancer risk.....	108	Foxo1.....	141
Breast cancer screening.....	79	Galactocele.....	102
Breast cancer screening behaviors.....	329	Gastric metastasis.....	375
Breast cancer surgery.....	55	Gastrointestinal tract metastasis.....	375
Breast carcinoma.....	271, 289	Gata3 expression.....	229
Breast carcinomas.....	336	Genetic counseling.....	16
Breast conserving therapy.....	127	Germline <i>brca</i> mutation.....	16
Breast disease.....	248	Granulomatous mastitis.....	195
Breast imaging.....	286	Gynecomastia.....	371
Breast implant.....	381	Hemangioma.....	190
Breast lesions.....	48	HER2.....	315
Breast mass.....	381	Her2.....	63
Breast reconstruction.....	105	Hereditary breast cancer.....	16
Breast ultrasonography.....	163, 199	Histopathological findings.....	360
Breast-conserving surgery.....	315	Histopathology.....	229
Breast-conserving therapy.....	55	Hormonal therapy.....	155, 292
Breast-Q.....	127	Hyperprolactinemia.....	102
Cancer.....	172, 203	Idiopathic granulomatous mastitis.....	94
Cardiotoxic agents.....	299	Il-2.....	141
Care pathway.....	222	Il-2Ra.....	141
Case report.....	94	Immediate breast reconstruction.....	55
Cd3D.....	141	Immunohistochemistry.....	21, 229
Chemotherapy.....	289, 299	Implant-based reconstruction.....	55
		In silico analysis.....	235

2022 Subject Index

In situ.....	343	Personal health records	155
Indeterminate lesion.....	252	Phldb	235
Innovative approaches	205	Phyllodes tumors.....	343
Intraductal	371	Positive lymph nodes.....	163
Intraductal carcinoma.....	343	Precision medicine.....	205
Intraductal proliferations.....	279	Prediction.....	203
Invasive ductal carcinoma.....	271	Pregnancy.....	195
Invasive lobular carcinoma	375	Progesterone receptor	167
Invasive papillary carcinoma.....	360	Prognosis.....	323, 336, 353
Kidney injury molecule-1	336	Programmed cell death protein 1 (Pd-1).....	21
Lupus erythematosus.....	13	Programmed death-ligand 1 (Pd-L1)	21
Lupus mastitis	13	Quality of life.....	155, 292
Lymphedema.....	148	Quality-of-life	148
Machine learning	203	Radical lumpectomy.....	127
Magnetic resonance imaging	172, 199	Radiomics	203
Male.....	371	Receptor change.....	167
Male breast cancer.....	199, 323	Recurrence	315
Malignant	343	Research	258
Mammography.....	172, 199	Risk factors.....	79, 182
Mastalgia.....	248	Risk-reducing salpingo-oophorectomy	16
Metastasis.....	252, 286	Sars-Cov-2	74, 91
Metastatic cancer.....	85	Saturated fatty acid.....	108
Mir-490	141	Screening.....	16, 91, 182
Molecular subtype.....	353	Sentinel lymph node biopsy	37
Molecular subtypes of breast carcinoma.....	271	Sentinel node biopsy	163
Mono-unsaturated fatty acid	108	Solid papillary	30
Mri.....	37, 79, 190	Staff viewpoint	222
Mucinous	30	Stereotactic core-needle biopsy	279
Mucinous carcinoma	353	Subcutaneous	63
Mucormycosis	289	Success factors	222
Muslim Arab Iraqi women	329	Superb microvascular imaging.....	48
Neo-adjuvant therapy.....	6	Surgery.....	195, 306
Neoadjuvant chemotherapy.....	167, 271, 289	Survey	205
Neoadjuvant systemic therapy	306	Survival	182
Neuroendocrine	30	Synchronous neoplasms.....	199
Neutrophil gelatinase-associated lipocalin.....	336	Tertiary hospital	74
New version	48	Trastuzumab.....	63
Nfat5	141	Treatment de-escalation.....	205
Nipple eczema.....	102	Triple-negative breast cancer.....	21, 315
Oncology department	74	Troponin I.....	299
Oncoplastic reconstruction.....	127	Tumor necrosis factor alpha inhibitor	94
Pandemic	85	Turkish.....	148
Panniculitis	13	Two-stage implantbased reconstructions.....	55
Papilloma	371	Ultrasonography.....	48
Pathological complete response.....	271	Ultrasound	172
Pathology features	323	Vus mutation.....	16
Patient reported outcome	155	Women	292
Patient satisfaction.....	63, 127	Women's health	48
Patient-related delay time	85
